Upon receipt of the second and subsequent revisions to this book, personnel responsible for maintaining this publication in current status should ascertain that all previous revisions have been received and incorporated.

* The asterisk indicates pages revised, added, or deleted by the current revision.

INTRODUCTION.

This illustrated parts catalog has been prepared to aid you in easily and quickly identifying parts of the models covered herein. The information in this catalog is based on data available at the time of publication.

This catalog features an index system consisting of:

1. An alphabetical index located in the front of the catalog.
2. A numerical index located in the back of the catalog, which lists all parts and figures in which they appear.

AEROFICHE. . . .This catalog has been designed for Aerofiche presentation. To facilitate the use of the catalog for Aerofiche, fiche and frame numbers have been added to the alphabetical and numerical indexes. Frame numbers appear at the bottom center of each page. Refer to the header of the applicable fiche for location of various indexing information.

STANDARD PARTS.

Many parts having standard usage have been incorporated into the Cessna Standard System. Parts in this group are designated with the part number prefix "S".

For standard hardware items such as Tinnerman nuts, clamps, etc., "AN" and "NAS" numbers have been used.

USABLE ON CODES. . . .Serial listings in this catalog are noted by a letter code located in the usable on code column which is the extreme right hand column of the parts list page. Usable on codes are applicable only to the figure on which they appear. The code letters and the serials to which they apply are listed at the end of the figure.

If no usable on code appears opposite a first column listing of the figure, the usage is applicable to all models and serials covered by this catalog. If no usable on code appears opposite any indented listing, the usage is applicable to all models and serials covered by the figure on which it appears.

Bold face type serials appearing on certain figures are for quick reference to large blocks of airplanes.

FRENCH serial usage is listed together with the United States serial usage immediately following the parts listing on each individual figure where applicable.

NON-INTERCHANGEABLE PARTS. . . .When parts are not interchangeable with earlier models, all parts applicable to the particular usage are listed. The letter code for the individual part usage is listed in the usable on column opposite each part. Care should be exercised in determining proper serial when ordering to insure receipt of correct part.

INTERCHANGEABLE PARTS. . . .When a later design part is completely interchangeable with the part it replaces, both parts will be serialized and the notation "when exhausted use___", or the abbreviation, "WEU___" will be entered following the listing of the earlier design part. This means that the earlier design part should be used on airplanes to which they apply until the supply of these parts is exhausted---after which time the later design part must be used. This is done to simplify stocking of parts by our distributors and dealers. The earlier part is as good, physically and functionally, as the later design part--the difference being the later design part can be used on more than one block of airplane serials.

SYMBOLS & PART NUMBER TERMS.

NP - The symbol "NP" appearing in the units per assembly column denotes that the item it appears opposite is not procurable.

AR - The symbol "AR" appearing in the units per assembly column denotes "As Required" and is used to indicate bulk quantity where an indefinite amount is used.

The following is a list of abbreviations that may appear in the description nomenclature:

ALT- Alternate part	LH - Left hand
ASSY - Assembly	M/G - Main gear
BHD - Bulkhead	N/G - Nose gear
BKI - Bulk item	PNL - Panel
COMP - Components	PRESS - Pressure
FSO - For spares order	RH - Right hand
FWD - Forward	SECT - Section
IND - Indicator	UPR - Upper
INSTL - Installation	WEU - When exhausted use

Other key letter symbols spaced apart from and following the part nomenclature are for cataloging and manufacturing purposes only and are not to be considered by the customer.

A blank entry in the part number column appears before an unprocurable part or installation which is also denoted in the "Units Per Assembly" column by the use of the symbol NP.

GROUP ASSEMBLY PARTS LIST ARRANGEMENT.

This section lists all replaceable items in the airplane and these items are detailed on illustrations throughout the section. The index numbers on the illustration are keyed to each accompanying parts list. The purpose of the index numbers is to provide complete and positive identification of the article, but should not be used for procurement purposes.

a. The figure and index number column of the parts list shows the figure number once at the beginning of the list. The figure number is followed by a dash and the indexed number. The remaining index numbers are preceded by dash only.

b. The part number column identifies the item by part number.

c. In the description column, relationship of items covered is shown by the degree of indention of each item, for example: The wing assembly (Figure 3) is listed in column (1) of the description column. The wing structure, is the next lower assembly and is therefore listed in column (2).

d. If two or more assemblies contain a majority of identical parts or the assemblies are left or right hand, the assemblies are listed together and the next lower assemblies or detail parts are listed as common for both assemblies, with the differing parts coded for usage on the correct major assembly.

e. Attaching parts are listed immediately beneath the item to be attached and preceding any detail parts of the item. They are listed in the same column as the item they attach and are preceded by the caption "Attaching Parts". The end of the attaching parts listing is followed by a separating symbol ---*---.

f. The quantity listed in the "Units Per Assembly" column for attaching parts denotes the quantity necessary to attach only one part. Total quantity necessary to attach more than one part is obtained by multiplying the attaching parts quantity by the number of parts attached.

g. Component parts of the complete airplane which are not included in any assembly, but which are used in conjunction with, or attach to certain assemblies, are listed either preceding the first detail or following the last detail of the assembly or installation, and in the same column as the major assembly or installation.

h. The quantities listed in the "Units Per Assembly" column are the quantity used per figure.

ACCESSORY KITS.

For accessory kit listings, refer to separate Accessory Kit Catalog.

BULK ITEMS.

Certain items such as flexible air hose, rubber mouldings and channels, windshield sealing strips etc., are noted in the catalog listings as bulk items. These listings also note the cut length of these materials for one installation. When an item is listed as a bulk item, it will be supplied to the dealer in the most convenient bulk length or quantity. Reference to the cut length or quantity per installation provides for the most satisfactory disbursement to the customer.

HOW TO ORDER.

USE YOUR CATALOG TO ORDER PARTS. Use parts and Accessories Order Form, which will be supplied by Cessna on request. Give complete information on addresses and make sure the part number and part name are as shown in the catalog. Be sure to specify quantities. Specify how the order is to be shipped, otherwise it will be sent out in the manner that seems best to the shipper.

SERIAL, COLOR, & CORROSION PROOFING.

Be sure to indicate model and serial number of the airplane. Serial number is very important to properly identify parts used on each airplane. When color is involved refer to "Upholstery & Interior Trim" section for example. If corrosion proofing is desired add the letter "CP" following the part number.

DISTRIBUTOR ORDERS.

Distributors will send all orders to the factory with instructions as to the shipping destination. The factory prefer not to make C.O.D. shipments for the distributor and all billing will be made to the distributor in the case of direct shipments.

DEALER ORDERS.

Dealers will place all of their parts order requirements with their distributor. The factory will not honor orders received directly from a dealer. It will be necessary for us to forward it to the distributor for his action. Therefore, dealer orders sent direct to the distributor will result in much faster delivery on any parts that are required.

RETAIL ORDERS.

Retail orders will not be honored by the factory. They are to be placed with the dealer or distributor in the owner's territory and when received directly by the factory will be forwarded to the distributor from whose territory it was received. Considerable saving in time will result to the owner if his orders are placed with his dealer or distributor.

Cessna

Cessna Aircraft Company reserves the right to cancel, add or change the parts and assemblies described in this catalog without notice.

Cessna

ADDITIONAL PUBLICATIONS.

In addition to the information in this Parts Catalog, a group of vendor publications is available from the Cessna Service Parts Center, which describe complete disassembly, overhaul and parts breakdown of some of the various vendor equipment items. A listing of these publications is issued periodically in the "Customer Care Supplies Catalog" which includes listings of Autopilots, Avionics Communications, and Navigation Equipment which are not covered in this manual. These publications are available from the Cessna Service Parts Center, Cessna Aircraft Company, Box 949, Wichita, Kansas 67201.

"All aircraft, regardless of manufacturer, are certificated under model number designations. However, popular names are often used for marketing purposes. To provide a consistent method of referring to the various aircraft, model numbers will be used in this publication unless names are required to differentiate between versions of the same basic model. The following table provides a cross reference listing of popular name vs. model numbers."

NAME	MODEL YEAR	MODEL	SERIALS	
			BEGINNING	ENDING

FINISH & TRIM PLATE

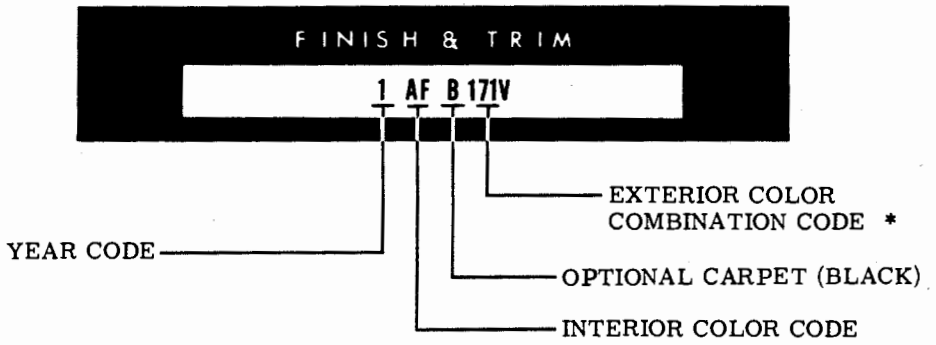
1971 THRU 1977
177RG0001 THRU 177RG1266

The "FINISH AND TRIM" plate is located on the left side of the airplane on the forward door jamb directly above the aircraft identification nameplate.

This plate indicates the model year, interior color scheme and the exterior paint combination.

The following diagram is an example showing the sequence and definition of each code symbol on the "FINISH AND TRIM" plate.

Interpretation of information stamped on the Finish and Trim Plate is obtained by use of the Color Code Chart for the respective year.



FINISH AND TRIM NUMBER
1 = 1971 Model Year
AF = Clove Brown Interior Scheme (Fabric)
AV = Clove Brown Interior Scheme (Vinyl)
B = Black Carpet (Optional)
171V = Vestal White, Butterscotch & Italian Gold Exterior
171L = Luster White, Butterscotch & Italian Gold Exterior

*Standardized arctic color reversal is designated by the prefix "R" on the exterior color combination code.

FINISH & TRIM PLATE

1978 & ON

177RG1267 & ON

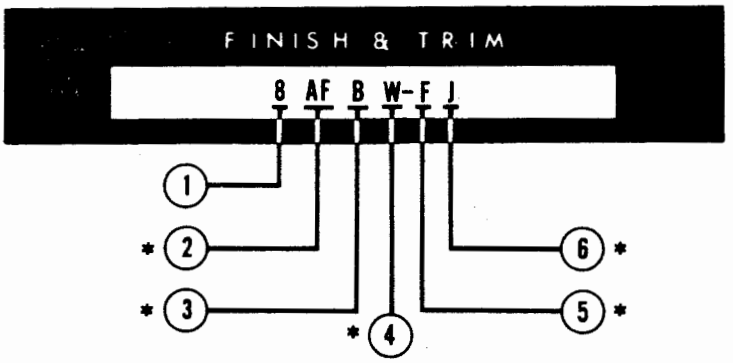
The "FINISH AND TRIM" plate is located on the left side of the airplane on the forward door jamb directly above the aircraft identification nameplate.

This plate indicates model year, interior color scheme and the exterior color combination.

Interpretation of information stamped on the Finish and Trim Plate is obtained by use of the Color Code Chart for the respective year.

Color Code Charts for yearly models appear on pages immediately following this page.

The Finish and Trim Plate is explained below. Explanatory remarks are keyed to the illustrated example.



(1) First column number indicates year.

(2) Second column letter or letters indicate interior color code of aircraft.

(3) The letter B following the interior code indicates optional black carpet.

(4) Fourth column letter indicates overall exterior color. The letter "A" indicates bare aluminum for overall color.

(5) First letter following hyphen indicates major stripe color.

(6) Second letter following hyphen indicates accent color.

* Special exterior and/or interior is denoted by the letters "SP" in lieu of the standard codes.

Interpretation of the example Finish & Trim code 8 AF B W-FJ that is obtained from the 1978 Color Code Chart is:

8 = 1978 model year
AF = Chestnut Brown interior scheme
B = Optional Black Carpet
W = Vestal White overall exterior paint
F = Pecan Brown major stripe paint
J = Jaguar Yellow accent area paint

UPHOLSTERY & INTERIOR TRIM

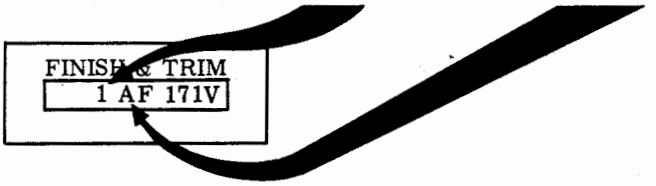
UPHOLSTERED PARTS - HOW TO ORDER

PARTS MARKED WITH A # FOLLOWING PART NUMBER REQUIRE A SECOND DASH NUMBER FOR COLOR & MATERIAL

(SPECIFY SERIAL NUMBER OF AIRCRAFT WHEN ORDERING)

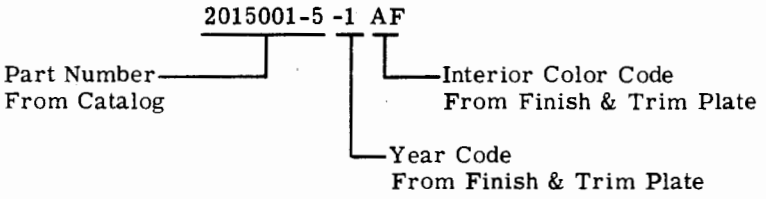
HOW TO DETERMINE 2nd DASH NUMBER

1. Find part number of desired part in catalog.
2. Refer to "FINISH & TRIM" plate, in the airplane, for your "Year Code" and "Interior Color Code."



3. Add the "Year Code" and "Interior Color Code," to the part number from catalog.

EXAMPLE OF COMPLETE NUMBER



INTERIOR PAINTED OR PLASTIC PARTS HOW TO ORDER

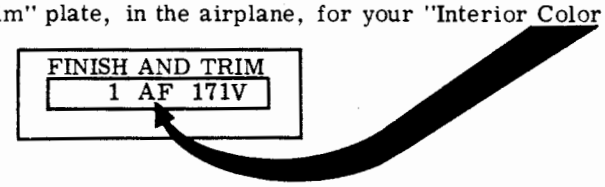
PARTS MARKED WITH A ¤ FOLLOWING PART NUMBER REQUIRE A SECOND DASH NUMBER FOR PROPER COLOR

(SPECIFY SERIAL NUMBER OF AIRCRAFT WHEN ORDERING)

To obtain second dash number use of correct table, for your model year, is required.

To use table,

1. Find part number of desired part in catalog.
2. Refer to the "Finish and Trim" plate, in the airplane, for your "Interior Color Code."



3. Locate part number from catalog in table.
4. Add dash number for color that appears under your "Interior Color Code."

STEP "3" — STEP "4"

Figure 1A. (Sheet 1 of 3) Registration Markings

Registration Markings (Cont)

S1500 TYPE STENCILS *
FOR SLANT GOTHIC LETTERS & NUMERALS

LETTERS AND NUMERALS ARE AVAILABLE IN 10 INCH AND 12 INCH HEIGHTS IN EITHER LEFT HAND OR RIGHT HAND SLANT.

LETTERS AVAILABLE ARE A THRU Z.
NUMERALS AVAILABLE ARE 0 THRU 9.

TO ORDER:

EACH LETTER OR NUMERAL WANTED MUST BE ORDERED BY GIVING BASIC PART NUMBER, FOLLOWED BY HEIGHT DESIRED, FOLLOWED BY SPECIFIC LETTER OR NUMERAL AND THE DESIGNATOR L OR R TO INDICATE LEFT OR RIGHT HAND SLANT.

EXAMPLE: S1500 - 10 - M L

- S1500 — BASIC PART NO.
- 10 — HEIGHT WANTED
- M — LETTER WANTED
- L — DIRECTION OF SLANT

S1600 TYPE STENCILS *
FOR VERTICAL GOTHIC LETTERS & NUMERALS

LETTERS AND NUMERALS ARE AVAILABLE IN 6 INCH, 12 INCH AND 20 INCH HEIGHTS. LETTERS AVAILABLE ARE A THRU Z. NUMERALS AVAILABLE ARE 0 THRU 9.

TO ORDER:

EACH LETTER OR NUMERAL WANTED MUST BE ORDERED BY GIVING BASIC PART NUMBER, FOLLOWED BY HEIGHT DESIRED, FOLLOWED BY SPECIFIC LETTER OR NUMERAL WANTED.

EXAMPLE: S1600 - 20 - N

- S1600 — BASIC PART NO.
- 20 — HEIGHT WANTED
- N — LETTER WANTED

* EACH STENCIL PROVIDES FOR EITHER BACKGROUND OR CENTER MASK.

1234567890

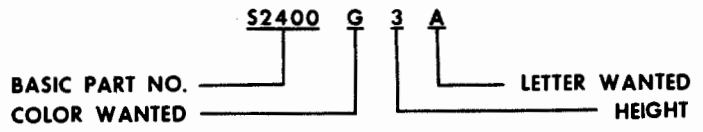
S2400 TYPE DECALS*
3 INCH VERTICAL GOTHIC LETTERS & NUMERALS

LETTERS & NUMERALS ARE 3 INCHES IN HEIGHT AND AVAILABLE IN WHITE (W), GOLD (G) OR BRONZE (B). LETTERS AVAILABLE ARE A THRU Z. NUMERALS AVAILABLE ARE 0 THRU 9.

TO ORDER:

EACH LETTER OR NUMERAL WANTED MUST BE ORDERED GIVING THE BASIC PART NUMBER, FOLLOWED BY THE COLOR, FOLLOWED BY THE HEIGHT(3), FOLLOWED BY THE SPECIFIC LETTER OR NUMERAL WANTED.

EXAMPLE:



* PRESSURE SENSITIVE ADHESIVE BACKED VINYL FILM

NOTE. *THIS FIGURE IS NOT ILLUSTRATED.

THIS LISTING IS COMPILED TO PROVIDE PART NUMBERS OF COMMONLY USED ENGINE COMPONENTS AND ASSOCIATED ACCESSORIES. RELATIONSHIP OF THESE PARTS TO ENGINE OR AIRCRAFT ASSEMBLIES IS NOT INDICATED BY INDENTION.

INDEX NUMBERS ARE PROVIDED FOR LOCATION OF LINE ON WHICH PART NUMBER APPEARS.

FOR ENGINE COMPONENTS NOT LISTED ON THIS FIGURE REFER TO LYCOMING PARTS CATALOG.
