REVISION TRANSMITTAL SHEET

TO: Holders of the Pratt & Whitney Canada Consumable Materials List,
Manual Part No. 3043340.

SUBJECT: Revision No. 21, dated Mar 15/2021

The Consumable Materials List (CML) has been revised to update information on certain existing materials & suppliers and to include both new materials & suppliers.

The Highlights pages show the changes that have been made to the CML at this revision. To avoid confusion on what revision bars are related to, both technical/editorial, the complete CML has been reprinted and distributed.

Please replace your existing copy of the CML with this new revision.

Any discrepancies, problems or suggestions regarding this revision shall be forwarded in writing using the Pratt & Whitney Canada Customer Feedback Sheet (RSVP), and directed to:

Pratt & Whitney Canada Corp.
1000 Marie-Victorin
Longueuil, Québec
Canada J4G 1A1

Attention: Manager, Technical Publications (05MS1)
Email: customer.service@pwc.ca
Fax: +1 (450) 465-7688

Customer Feedback Sheets are contained with new manuals and each subsequent revision. You may also submit your feedback via our on-line RSVP form available at:
www.pwc.ca/en/3_0/3_0_6/3_0_6_5_7.asp.

REVISION NO. 21 HIGHLIGHTS

<u>Section</u>	<u>Description of Change</u>
Index	PWC08-034, PWC07-047A, PWC06-005E, PWC05-005A, PWC15-021, PWC06-049 and PWC05-077C added. PWC08-003 and PWC08-003A DELETED.
Part 1 Section-03 - Oils	<u>Section 03</u> Note added for PWC03-006.
Part 1 Section-05 - SPECIAL MATERIALS	<u>Section 05</u> PWC05-005A, PWC05-054, PWC05-054A, PWC05-005A, PWC05-054, PWC05-054A, PWC05-077C, PWC05-077D, PWC05-160, PWC05-267, PWC05-365 and PWC05-372 added. PWC05-040, PWC05-068, PWC05-121 and PWC05-327 specification revised. PWC05-450 specification revised and supplier code added.
Part 1 Section-06 - LUBRICANTS	<u>Section 06</u> PWC06-005E and PWC06-047 specification revised. PWC06-049 added.
Part 1 Section-07 - LACQUERS, VARNISHES, PAINTS, THINNERS AND HARDENERS	<u>Section 07</u> PWC07-047A, PWC07-069 and PWC07-070 added. PWC07-047 note added.
Part 1 Section-08 - BONDING, ADHESIVES AND FILLER COMPOUNDS	<u>Section 08</u> PWC08-003 and PWC08-003A DELETED. PWC08-034 added.
Part 1 Section-11 - CLEANING AGENTS	<u>Section 11</u> PWC11-013 note revised. PWC11-021C material and specification revised. PWC11-049 specification revised.
Part 1 Section-13 - PRETREATMENT FOR PAINTING	<u>Section 13</u> PWC13-001A+ supplier code revised.

CONSUMABLE MATERIALS LIST
INTRODUCTION

1. General

WARNING: YOU MUST READ THE MATERIAL SAFETY DATA SHEETS (MSDS)(OCCUPATIONAL SAFETY AND HEALTH ACT (OSHA), FORM 20 OR EQUIVALENT) BEFORE YOU USE THESE MATERIALS. SOME MATERIALS CAN BE DANGEROUS. YOU CAN GET THE DATA SHEETS FROM THE MANUFACTURERS OR THE SUPPLIERS OF THESE MATERIALS.

- A. The P&WC Consumable Materials List (CML) is prepared to the instructions written in the Air Transport Association (ATA100) of America specification, Revision 28.
- B. The CML is a list of consumable materials used to do the maintenance and the repair of P&WC gas turbine engines. The consumable material item numbers are referred to in the Engine and Overhaul Manuals and, as necessary, in other P&WC technical publications.
- C. Consumable materials are fuels, oils, greases, lubricants, hydraulic fluids, sealants, adhesives and paints. Materials such as bolts, washers, nuts and packings are not consumable materials and are not included in the CML. These materials are given in the Illustrated Parts Catalogs (IPC).
- D. Consumable materials and suppliers that are the same for Pratt and Whitney Canada Corp. (P&WC) and Pratt and Whitney America (PWA) engine models are also specified in the Pratt & Whitney Overhaul Standard Practices Manual, P/N 585005 (SPM).
- E. The products manufactured by the companies given in this manual and in the PWA SPM are approved by P&WC and PWA for use as referred to in P&WC publications. P&WC does not approve or endorse products manufactured by companies that are not shown in this manual or in the PWA SPM.
- F. If you find any errors or problems with the data in this manual, you can use the RSVP Customer Feedback Sheet to tell us about it.
- G. The CML will be revised, as necessary, to include new approved data.

2. Manual Arrangement

A. Introduction

- (1) The introduction gives general data about the manual. It also contains a List of Abbreviations and a Cross-reference List of Specifications and Standards.
- (2) The List of Abbreviations gives all the abbreviations used in this manual.
- (3) The Cross-reference List of Specifications and Standards gives the US specifications and standards (eg. AMS, MIL, Federal Standards) and the equivalent British, French, German, NATO and/or Commonwealth of Independent States (CIS) specifications and standards.

INTRODUCTION

Page 1
Dec 07/2018

PRATT & WHITNEY CANADA
CONSUMABLE MATERIALS LIST
MANUAL PART NO. 3043340

- (4) The Alphabetical List of Consumable Materials is a cross-reference list between material name and the PWC item number. It gives all the consumable materials in alphabetical sequence of their primary name (ex: Oil, Engine Lubricating will be below Oil).

B. Part 1, Consumable Materials List

- (1) The Consumable Materials List is a list of all materials and is divided into 18 sections as follows:

Section 1 - Fuels

Section 2 - Hydraulic Fluids

Section 3 - Oils

Section 4 - Common Greases

Section 5 - Special Materials

Section 6 - Lubricants

Section 7 - Lacquers, Varnishes, Paints, Thinners and Hardeners

Section 8 - Bonding, Adhesives and Filler Compounds

Section 9 - Sealants

Section 10 - Anti-ice and De-icing Materials

Section 11 - Cleaning Agents

Section 12 - Strippers

Section 13 - Pre-treatment for Painting

Section 14 - Disinfectants

Section 15 - Storage Preservatives and Corrosion Inhibitors

Section 16 - Structure Paints

Section 17 - Bacteriological Contamination and Protection Materials

Section 18 - Primers.

- (2) The list in each section has four columns as follows:

- Item No.
- Material
- Specification and/or Manufacturer's Reference
- Supplier Code.

- (a) Item No.

The item number given for the material is in this column. The number includes a PWC prefix (to identify Pratt & Whitney Canada), a two-digit number to identify the material section and a three-digit number to identify the material (eg: PWC03-001). Alternative materials are included if they are available. Alternative materials have the same function as the basic materials but can have a different specification, trade name and/or source. These materials have a letter added to the end of the basic item number (eg: PWC03-001A).

INTRODUCTION

Page 2
Dec 07/2018

PRATT & WHITNEY CANADA
CONSUMABLE MATERIALS LIST
MANUAL PART NO. 3043340

A “+” symbol after the Item No. identifies a consumable material which is safer for the user and/or better for the environment (eg: PWC03-001+ or PWC11-003A+).

The P&WC technical publications can refer to the Item No. in four different ways:

- If the item number has no letter at the end of the basic number (eg: PWC03-001), you can use the alternative materials
- If the item number has a letter at the end of the basic number (eg: PWC03-001A), you must use that specified alternative material only
- If the item number has an asterisk at the end of the basic number (eg: PWC03-001*), you must use the basic material only.
- If the item number has a letter at the end of the basic number and the “+” symbol (eg: PWC03-001A +), you must use that specified alternative material only.

The item numbers are internal to P&WC and provide a cross-reference between the CML and other P&WC technical publications. When buying products, customers should use the trade names, the specifications and the standards of the consumable materials.

(b) Material

All materials are identified by their technical names (eg: oil, adhesive, antiseize compound, abrasive cloth).

(c) Specification and/or Manufacturer's Reference

Trade names, specifications and standards (eg. AMS, MIL, US) for the material are given in this column. Specifications and standards are given without the suffix; therefore, the latest version of the specification/standard applies. If you know the American specification or standard, you can use the Table 2, the Cross-reference List of Specifications and Standards, to find the other specifications and standards that are applicable to the material. Products which you can get from more than one source (eg: Alcohol, Isopropyl) have the product reference identified as OPEN.

The CPW (Canadian Pratt & Whitney), PWA (Pratt & Whitney Aircraft), PMC (Process Material Control), PS (Process Solution) and/or SPMC (Service Process Material Control) reference numbers are also in this column. These numbers provide a cross-reference to identify the material per the SPM and the P&WC Approved Products Listing.

(d) Supplier Code

The codes given in this column are the manufacturer's Commercial Agency of Government Entity (CAGE) number. A supplier used by Pratt and Whitney Canada (P&WC) and Pratt and Whitney America (PWA), who does not have a CAGE No. is given a SXXXX code by PWA (Ref. Pratt & Whitney Overhaul Standard Practices Manual, P/N 585005). A supplier used only by Pratt & Whitney Canada, who does not have a CAGE No. or a SXXXX code, is given an AXXXX code by P&WC. A supplier code with a (m) after the code is the manufacturer of the material and a supplier code with a (s) after the code is a supplier/distributor of the material (eg: C12345(m) or A0099(s)).

C. Part 2, List of Suppliers

The Part 2 gives the codes, names and addresses of all the suppliers of consumable materials. This data is divided into two tables. The first table, Table 1, Supplier Codes and Addresses, is in alpha-numerical sequence of supplier code. The second table, Table 2, Supplier Names and Codes, is in alphabetical sequence of the primary name of the suppliers.

3. List of Abbreviations

A. The Table 1 gives all the abbreviations used in this manual.

ALPHABETICAL LIST OF CONSUMABLE MATERIALS

The Alphabetical List of Consumable Materials is a cross-reference list between material name and the PWC item number. It gives all the consumable materials in the alphabetical sequence of their primary name (ex: "Oil, Engine Lubricating" will be below "Oil").

<u>Material</u>	<u>Item No.</u>
Abrasive, Aluminum Oxide.....	PWC05-075
Abrasive, Aluminum Oxide.....	PWC05-125
Abrasive, (Medium Grade).....	PWC05-001
Abrasive, Silicon Carbide.....	PWC05-123
Abrasive, Silicon Carbide.....	PWC05-235
Abrasive, Silicon Carbide.....	PWC05-235A
Abrasive, Silicon Carbide.....	PWC05-235B
Acetone	PWC11-012
Acid, Chromic Flakes or Solution	PWC05-197
Acid, Hydrochloric Technical Grade	PWC05-196
Acid, Hydrochloric Technical Grade	PWC05-196A
Acid, Hydrofluoric (Technical Grade)	PWC05-004
Acid, Nitric Commercial Grade	PWC05-195A
Acid, Nitric Technical Grade.....	PWC05-195
Acid, Phosphoric (Concentrated)	PWC05-006
Acid, Sulfuric	PWC05-074
Adapter, Needle (for Potting Compound)	PWC05-347
Adhesive, Blue Primer	PWC08-001
Adhesive, Epoxy (Electrical)	PWC08-025
Adhesive, Epoxy (Electrically Conductive)	PWC08-021
Adhesive, Epoxy (Flexible High Strength)	PWC08-022
Adhesive, Epoxy, Two Part	PWC08-006
Adhesive, Epoxy, Two Part	PWC08-007
Adhesive, Epoxy	PWC08-015
Adhesive Film, Epoxy Scrim Supported (Epoxy Reticulating)	PWC08-033
Adhesive Film, Epoxy Scrim Supported (Epoxy Reticulating)	PWC08-033A
Adhesive, Anaerobic.....	PWC08-034
Adhesive, Fluorosilicone	PWC08-002
Adhesive, Fluorosilicone	PWC08-002A
Adhesive, Fluorosilicone	PWC08-002B
Adhesive, Industrial (Quick-Set)	PWC08-014
Adhesive, Instant	PWC08-029

PART 2

LIST OF SUPPLIERS

1. General

- A. The Part 2 gives the codes, names and addresses of all the suppliers of consumable materials. This data is divided into two tables. The Table 1 is in alpha-numerical sequence of the supplier code. The Table 2 is in alphabetical sequence of the primary name of the suppliers.
- B. The suppliers of consumable materials, identified by their CAGE No., AXXXX or SXXXX code, are given in this list. The Supplier Codes given in this list are the manufacturer's Commercial Agency of Government Entity (CAGE) number. A supplier used by Pratt and Whitney Canada Corp. (P&WC) and Pratt and Whitney America (PWA), (who does not have a CAGE No.) is given a SXXXX code by PWA (Ref. Pratt & Whitney Overhaul Standard Practices Manual P/N 585005, CONSUMABLE MATERIALS). A supplier used only by Pratt & Whitney Canada, (who does not have a CAGE No.) is given an AXXXX code by P&WC.

2. Supplier Codes and Addresses

- A. Table 1, Supplier Codes and Addresses gives a list of the supplier code and the supplier name and the full address, including telephone and fax numbers. This list is in alpha-numerical sequence of the supplier code. Refer to Table 2, Supplier Names and Codes, if you only know the supplier name.
